

Debate Forum

Project Charter

PROBLEM STATEMENT

There are many places online where people can debate over a varying array of topics, but rarely are they heavily moderated to maintain a mature and educational debate environment. This project aims to fulfill that need.

OBJECTIVES

- To create a moderated and educated debate environment
- To allow hosting of multiple debates
- To have a robust system of keeping debates mature and educational

STAKEHOLDERS

| | |
|----------------------------|---|
| Project Coordinator | Paul Steele |
| Project Owners | Cody Tyson, Roy Ramstad, Naveen Ganessin, Alex Rosenberg, Michael Schloss |
| Developers | Cody Tyson, Roy Ramstad, Naveen Ganessin, Alex Rosenberg, Michael Schloss |
| Users | Debaters, Moderators, & Administrators |

DELIVERABLES

- A Java-based cross-platform desktop application that provides access to the forum(s) for debate including a login module for administrators, moderators and users
- Backend database system to keep track of user accounts and forum data using MySQL and PHP
