High-Order Defect Log

HIGH ORDER DEFECTS FOUND IN DEFECT VERSION

Defect #	Defect	Severity	Type of High Order Testing	Description
1	Text keeps changing colours between white and dark gray	3	Usability	Load the login page and check the color of the text
2	On the initial sign in page, the menu at the top also contains a sign in button (redundant interface feature)	3	Usability	As soon as the main page is loaded, there are two buttons that perform the identical action of loading the login page
3	Pictures of drinks are sideways	2	Usability	After searching for a drink and clicking on it, the drink's image on its description page appears sideways
4	There is no dialog upon a failed login attempt	3	Usability	This occurs upon attempting to log into the website with an incorrect username/ password combination

Defect #	Defect	Severity	Type of High Order Testing	Description
5	There is no dialog upon a failed account creation attempt	3	Usability	This occurs upon attempting to create an account with a bad username or password, such as a combination that already exists
6	The website is insecure because it uses mixed content; it loads some http elements even though the page overall uses https	2	Security	Upon loading the website, the user's browser has an icon indicating the site is not completely secure due to mixed content. (In Chrome, it is an "i" next to the https address.)
